Color for Wedding

To the Editor of Woman's Page:

Dear Madam—I am going to be bridesmail in a wedding. I am five feet high and have dark complexion, with dark brown eyes, Could you please teil me what would be the best color to wear for a dress, and what hat to match, and what style, small or large? I am twenty-one years old.

M. T. S.

Pale pink is becoming to dark-haired neople. A deeper, flame-like shade is also very good. Wear a large picture-hat of tuils to match the color of the dress.

It Was In August

To the Editor of Woman's Page: Dear Madam—Can you please tell men which number of the Evening Public Evening Public Evening Public Evening Public Evening Public Evening the final chapter of "Tarian the Terrible" appeared? And the number of the page?

Is it all right to use tinted stationery?

ALOYSE. This story appeared on August 8, but only in the night extra edition.

Yes, if you don't use too brilliant a fint it is perfectly correct to use the colored paper. But a loud pink of a blue that hurts your eyes is in bad taste. Thank you very much for your good wishes. I hope you will always find the wishes.

Try the Public Library

To the Editor of Woman's Page:

Dear Madam—I am a school girl deeply interested in study, and lately I had an argument with a girl friend of mine on the topic. "Who settled Americt" This friend, who is Irish, claims that over 38 per cent of General Washington's army with the Revolutionary forces were Irish. I do not believe this to be 80. It has caused such ill feeling forces were trish. I do not believe this to be so. It has caused such ill feeling between us that I would be glad to know just who is right and, if possible, that you let me know which text books contain information of this nature. The school histories do not give us facts which I might be able to use in answering my friend. A PUZZLED LASSIE.

I shouldn't let this argument make so frightfully much difference if I were you. The librarian at the public library will help you find an encyclopedia which will give you some information on this subject, if it is to be had. But I think you will have a difficult time finding just who was who in Washington's army, for they were all Americans then, you know.
